

CHARTER

By joining Hydrogen Europe, the members:

- Support and aim to achieve the climate targets of the Paris Agreement and improve air quality
- Recognise hydrogen as a net zero emission society enabler
- Support hydrogen as a clean energy carrier and feedstock to achieve the transition to net zero emission in the power, gas, heating and cooling, industry and transport sectors, enabling sectoral integration
- Respect that hydrogen can be produced in many ways
- Support the different carbon free/neutral hydrogen production pathways in order to enable a zero-emission society
- Aim to act together to enable the energy transition through hydrogen and fuel cells technologies and develop a strong European fuel cells and hydrogen industry

Hydrogen Europe is the European association representing the interest of the hydrogen and fuel cell industry and its stakeholders.
